Please make check/money order payable to the State of Michigan and submit to the address at the top of the page.

Signature: _____ Date: _____

Please print your name here: _____

Instructions on the
back of this form

This certification will NOT be issued without the above signature and date!

Pesticide Applicator's Application Instructions

General Information

Be advised that it is a violation of the Natural Resources and Environmental Protection Act, 1994 Public Act 451, Part 83 to purchase or apply restricted use pesticides, or to apply any pesticide for a commercial purpose, scheduled or required work assignment, without a valid credential. Applicators who are not subject to the business license requirement and who use a general-use pesticide directly from its original container (ready-to-use product) are exempt from certification requirements.

Commercial and Registered Applicator - This application is intended for use by individuals who apply a pesticide in the course of his or her employment or other business activity. Commercial and Registered applicators or firms that intend to apply pesticides for hire must also obtain a Commercial Pesticide Applicators License.

Private Applicator - This application is intended for use by individuals or their employees who apply restricted use pesticides for the purpose of producing any agricultural commodity on property:

- A. Owned or rented by an individual or his/her employer, or
- B. On property of another for no compensation other than trading of personal services between producers.

To Qualify For Certification/Registration Credential

1. Must be 18 year of age or older.
2. Submit appropriate fee and a completed application.
3. **Commercial** applicators must pass the commercial core exam and a minimum of one category exam in the applicant's area of pesticide application. If the applicator applies for more than one category, all exams must be passed before a credential will be issued. An additional standard is required for individuals who use fumigant pesticides or apply pesticides by aircraft.
Registered applicators must pass the registered core exam, and complete a Michigan Department of Agriculture (MDA) approved training program coordinated by a MDA Approved Trainer. The training program must be verifiable and category-specific. A signed Registered Verifiable Training form must be completed, signed, and returned to MDA.
Private applicators must pass the private core exam. An additional standard exam is required for applicators who apply pesticides by aircraft or who use pesticides for fumigation.
4. All exams must be passed with a score of 70% or better before a credential will be issued.
5. Applicants who fail their exam(s) may schedule to retake the exam(s) without an additional fee within six months after the initial application date.

Instructions for Completing the Application

1. Type or print in pen.
2. You must complete all the requested information on the application form.
3. Check yes or no if you are certified by another state.
4. Check yes or no if you are applying for reciprocity by another state.
5. Check type of applicator certification/registration required.
6. Check if you are adding category(ies) to your current credential.
7. Check the category(ies) in which you are seeking certification/registration.
8. Check aerial or fumigation standards if you apply pesticides by aircraft or use fumigant pesticides.
9. Sign and date the application form.
10. Contact your local MDA regional office for an appointment to take examinations. Exams are given by appointment only. Anyone requesting an exam without an appointment may be turned away.
11. Take your application and a check or money order payable to the "State of Michigan" in the appropriate amount to the exam site. NO CASH WILL BE ACCEPTED. The application fee is non-refundable.
12. You must pass all the exams for the pesticide applicator categories you designate on your application within six months after the initial application date. A minimum score of 70% is required to pass an exam. A MDA representative will provide you with a receipt and temporary credential.

A certification/registration card will be issued within two to four weeks to each person who satisfactorily completes the requirements for certification/registration. The applicator must have the card in his/her possession when purchasing restricted use pesticides or applying any pesticides. The fee for a replacement credential is \$10.00.

An applicator's credential expires December 31 of every third year. Individuals will receive a renewal application and information approximately three months prior to the expiration of their credential. Renewal may be obtained by accumulation of seminar credits or by taking renewal examination(s).
